Dear Mr President:

I am concerned about privacy.

Agencies such as SSA and IRS have extensive personal records which could be used intentionally for surveillance of opponents or unintentionally released risking identity theft. The Biden administration tightly restricted access to limit breaches. You and Mr Musk have handed access to untrained kids such as Mr Elez (the racist who also had write access) and just signed another order to further reduce protections. The release of your own returns was a long saga and eighteen of your top advisors in a sadistic signal meeting couldn't even protect their own information. There are now reports that the IRS is planning to collude with ICE and turn tax data to the task of deportation.

Please assure me that you will protect privacy.

My pride in the US derives in part from our human rights.

Sincerely,
Eric Babson
