

Mathematics Placement Requirement (MPR) for Winter 2009

All students enrolling in Math 16A are required to satisfy the Mathematics Placement Requirement (MPR). The MPR can be satisfied by meeting either one of the following guidelines:

- Passing the Precalculus Diagnostic Exam with an overall score of at least 30 AND a trig score of at least 2.
- Passing MAT 12 (or an equivalent elsewhere) with a C- or better.
- Scoring either a 4 or 5 on the Advanced Placement "AB" Exam.
- Scoring either a 3, 4, or 5 on the Advanced Placement "BC" Exam.
- Scoring 700 or better on the SAT Reasoning exam or either one of the SAT Math Subject exams (Level 1 or 2).

Please note that you **WILL BE ADMINISTRATIVELY DROPPED** from the class by the Math Department no matter what anyone else, including an adviser or instructor, may have told you if you have not met either one of these requirements. This action will occur on or before Wednesday, January 21, 2009, the last day to add courses without a PTA number.

If you have taken Math 12 in any quarter prior to Fall 2008, you must notify us with this information. Additionally, if you have taken an equivalent course elsewhere for Math 12 or have earned any one of the SAT or AP exam scores noted in this message, please let us know as soon as possible so that we may confirm this with the Registrar's Office.

When you respond to this message with any part of the above information, **PLEASE REPLY ONLY** to studentservices@math.ucdavis.edu.

That said, if you have not taken the Diagnostic Exam or have taken it and did not get a score that placed you into Math 16A, the exam will be given on the following dates:

Sunday, January 4, 2009
123 Science Lecture Hall at 3:00p (SHARP)

Saturday, January 10, 2009
194 Chemistry at 11:00a (SHARP)
